Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Provide good ventilation at the workplace.

7.2 Conditions for safe storage, including any incompatibilities
Store away from oxidizing agents. Store away from halogens. Do not store together with acids. Keep container tightly sealed. Store in cool, dry conditions in well-sealed containers.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters
Graphite TWA 2 mg/m³
Appropriate engineering controls: The usual precautionary measures for handling chemicals should be followed.

8.2 Exposure controls
General protective and hygienic measures
The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Avoid contact with the eyes. Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such
Approved dust mask, type N95 recommended. Under conditions where exposure levels are not under reasonable control a positive pressure air supplied respirator may be recommended. Wear impervious clothing to minimize skin contact. No special glove composition is required for carbon black. Gloves may be used to protect hands from carbon black soiling. Use of a barrier cream may help to prevent skin drying. Wash hands and other exposed skin with mild soap and water.

Carbon black, spilled on pedestrian surfaces may pose a significant slip hazard.
